

Request and Consent for Pediatric Dental Treatment
Kids Plus Pediatric Dentistry, P.C.
Denise E. Fisher, DDS, Mariam Khan, DDS,
Nicole Johnson, DDS, Hilary Crotty DDS

Please read this form *carefully!* If you do not understand something to your satisfaction, please ask questions. We will be happy to explain it!

1. I request and authorize the treatment and procedures for:

Patient Name: _____

Date: _____

2. I further request and authorize the taking of dental x-rays and the use of such anesthetics as may be considered necessary to treat the patient's dental problem(s).

3. I have had explained to me by Denise E. Fisher, DDS/ Mariam Khan, DDS/ Nicole Johnson, DDS/ Hilary Crotty DDS have had sufficient opportunity to discuss the patient's dental condition/problem(s), the planned procedures and treatment, and the benefits to be reasonably expected from this treatment plan, compared with alternative approaches and/or no treatment.

4. The usual and most frequent risks or complications occurring from the planned treatment and procedures also have been explained to me. These risks include but are not limited to, the possibility of pain or discomfort during the treatment, swelling, infection, bleeding, injury to adjacent teeth and surrounding tissue, development of a temporomandibular joint disorder, temporary or permanent numbness, and allergic reactions.

5. I **understand** that during the course of the patient's treatment, something unexpected may arise that may necessitate procedures in addition to or different from those listed on the patient's PLAN OF CARE and that I will be consulted *prior to initiation of treatment procedures* not listed. I am aware that the practice of dentistry is not an exact science and acknowledge that no guarantees have been made to me concerning the results of the dental treatment that the patient receives at Kids Plus Pediatric Dentistry, P.C.

6. I **understand** that treatment for children includes efforts to guide their behavior by helping them to understand the treatment in terms appropriate for their age. Behavior will be guided using praise, explanation and demonstration of procedures and instruments, using variable voice tone and loudness.

7. I **understand** that should the patient become uncooperative during dental procedures with movement of the head, arms and /or legs, dental treatment cannot be **safely** provided. During such disruptive behavior, it may be necessary for the assistant(s) to hold the patient hands, stabilize the head and/or control leg movements.
